

Do Fellowes' surge protectors cover lightning strikes?

Last Modified on 05/31/2019 1:35 pm CDT

Fellowes surge protectors will prevent damage from distant lightning strikes. No brand of surge protection can realistically offer protection from nearby strikes due to the massive amounts of electricity generated in even a small lightning strike. However, the connected equipment warranty on Fellowes Surge Protectors does cover damages in the event of a nearby lightning strike.
