

What are the height adjustments available on the 91712 Monitor Riser?

Last Modified on 04/12/2019 11:18 am CDT

This product comes with 4 large columns and 4 short columns.

Here are the dimensions:

Large column: 2" tall

Small column: 1" tall

The riser can be adjusted from 2" tall (just using the small columns) to 4" tall (using both small and large)
