

Is my PrivaScreen™ Blackout Privacy Filter reusable?

Last Modified on 04/18/2019 1:05 pm CDT

For PrivaScreen™ Filters on laptops, monitors and tablets: the filter may be removed, stored and reused. Simply remove the filter from the screen and store in a clean, flat area, like a protective plastic folder until you are ready to use again. The tabs can remain on your screen, but the adhesive strips and L-shaped corner tabs will stick to the filter.
