

How long does it take to charge a phone on my Lotus DX - is it same as using a cable?

Last Modified on 06/07/2019 1:43 pm CDT

It's not a straight answer. It depends on the size of the phone's battery, if you're using it while charging, and the battery level when you start charging (20% life will charge faster than 85% life). See below for estimate per type of phone:

Device	Battery size (mAh)	*2A (time in hours) *Front USB ports	*1A (time in hours) *Wireless Charger
Galaxy S8	3000	1.5	3
Galaxy S8+	3500	1.75	3.5
10.5 iPod Pro	6080	3.04	6.08
12.9 iPod Pro	8200	4.1	8.2
iPhone 7	1960	0.98	1.96
iPhone 7+	2900	1.45	2.9
iPhone 8	1821	.91	1.82
iPhone 8+	2675	1.34	2.68
iPhone X	2716	1.36	2.71
